Directions: Use this form to keep a list of potential careers with helpful facts and information.

SAMPLE: LANDSCAPE ARCHITECT

JOB DESCRIPTION	NECESSARY SKILLS	NECESSARY EDUCATION
Plan and design land areas for such projects as parks and other recreational facilities, airports, highways, hospitals, schools, land, subdivisions, and commercial, industrial, and residential sites.	Confer with clients, engineering personnel, and architects. Prepare site plans, specifications, and cost estimates. Seek new opportunities through marketing, writing proposals, or giving presentations. Inspect work to ensure compliance, approve quality of materials and work, and advise client and construction personnel. Prepare graphic representations and drawings of proposed plans. Compile and analyze data of structures.	Most of these occupations require a four-year bachelor's degree
